MFK Touch Function Key: The touch sensor is used to answer & end phone calls. It pauses & plays music. Tap twice to activate the voice control for the second device.
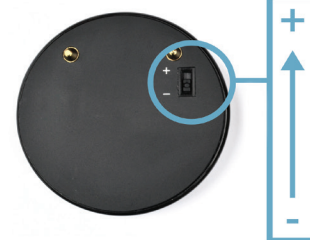

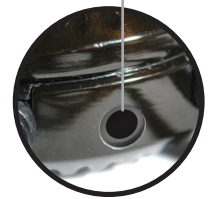

Volume & Scroll Touch Keys: These keys are used to turn the volume up or down, scroll through the menu or skip forward & back when listening to music.

MFB Base Multi-Function Button: This button is used to initiate & answer calls, turn the Quattro 4L on & off, pair the Quattro 4L to Bluetooth devices (e.g. mobile phone), switch between calls and initiate Siri or S-Voice for voice activation.

8-wire Neckloop: This cord hangs the Quattro 4L around your neck like a necklace. This is an 8-wire loop that connects to hearing aids or cochlear implants with t-coils, delivering sound directly through the hearing aids or cochlear implants when they are in t-coil mode.
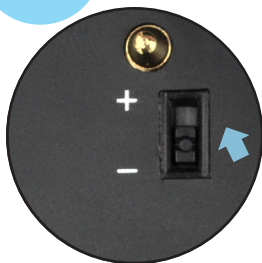

Earbud Jack: This jack accepts any 3.5mm audio only headsets. (We suggest using our patented SmartSound Earbuds.)

Battery Engage Switches: There is a battery engage switch on the Quattro 4L unit. This switch MUST be in the **+** position on the Quattro 4L for the unit to function. By switching to the **−** position, the battery is disengaged from the circuit. This switch does NOT need to be put in the **−** position; its purpose was to protect the integrity of the battery during storage.

USING THE QUATTRO 4L

1. CHARGING THE QUATTRO 4L

STEP 1: Use the tip of a pen to move the battery engagement +/- switch into the + position on the Quattro 4L.
Do NOT turn it off!

STEP 2: Plug charger into Quattro 4L.

STEP 3: Plug charger into outlet to fully charge the Quattro 4L.

STEP 4: Red light is on QT4L.

STEP 5: Quattro 4L is charged when the red light turns blue.

TIP: Charge the Quattro 4L every night for maximum performance. The battery icon will identify when battery power is running low on the main base.

2. PAIRING THE QUATTRO 4L WITH A BLUETOOTH DEVICE

- Make sure **other connected Bluetooth devices** are **turned off** when syncing a new Bluetooth device.

STEP 1: Ensure Quattro 4L is turned off, then press and hold MFB for approximately six seconds.

STEP 2: After around six seconds, the Quattro 4L announces "Pairing".

STEP 3: Turn on the Bluetooth device and put it in Bluetooth pairing mode. Often this requires device menu selections such as Settings > Bluetooth > ON. Choose Quattro 4L.

STEP 4: When the Quattro 4L announces "Paired" then "Device one connected", you are ready to use your Quattro 4L.

3. TAKE A CALL

STEP 1: To answer the call: Firmly press multi-function key once.

STEP 2: To reject the call: Press and hold MFB.

STEP 3: Adjust the volume: Tap < (volume -) or > (volume +).

STEP 4: To end call, press and hold multi-function key. The Quattro 4L announces "call terminated."

NOTE: You can place a call directly from your phone with sound delivered through your Quattro 4L if "Headset" or "Quattro 4L" is selected on the phone.
