

Model CA-FA

Smoke Detector with Wireless Transmitter

Model CA-FA consists of a UL listed First-Alert® smoke detector and a wireless transmitter mounted on a common mounting plate. It is suitable for wall or ceiling mounting. This device is intended for use with Serene Model CA-360 Wireless Notification System (bedside receiver) for the hearing impaired.

First-Alert smoke detector uses a photoelectric sensor for less nuisance alarms. Its internal battery is designed for 10-year operation.

The wireless transmitter is a supervised type (Serene Model CA-AX) and uses two AA size alkaline batteries for operation. Typical battery life is 10 to 24 months.

FEATURES:

- UL listed First-Alert® smoke detector with a 10-year battery
- Both smoke detector and transmitter are mounted on a common plate for simple installation
- Wireless operation with supervision
- 85dBA audio alarm

SPECIFICATIONS:

1. Advanced technology: 2.4 Ghz Smart-Code
2. Operating range: Up to 200 ft in open space
3. Compatible with Serene Model CA-360, CA-RX and CA-PX receivers
4. Up to ten Model CA-FA may be paired to a Model CA-360 (bedside receiver)
5. Smoke detector emits T3 audio alarm at 85 dbA; complies NFPA 72; Power LED & alarm indicator
6. Battery life: ~10 year on the smoke detector; 10 to 24 months on transmitter depending on frequency of activation
7. Supervised design with low battery alert
8. Operating temp: 10 to 40°C
9. Size: 9" x 5.75" x 1.375"
10. Weight: ~ 1.1 lbs
